WORK TOUGH TOOLS

## 5kVA Triple Outlet 110 volt Transformer

AT45011

- This site transformer will run power tools up to 5kVA.
- The continuous rating is approx 2.5kVA.
- There are 2x16 amp outlets and 1x32 amp outlet.
- There is also a reset button which can be used if the transformer overheats due to excessive use or overloading. In this instance you must let it cool down before the reset will take effect.
- For use with 110V power tools.
