- * All Hardman Diamond Blades are suitable for Dry Cutting although water cooling systems can be used if required.
- * Dry Diamond Blades should be allowed to 'cool' and are not designed for continual usage.
- * Users should ensure the blades are used at the correct speed as shown on the blade and in conjunction with the machine operating instructions.
- * Users should ensure the blade is fitted to follow the directional arrow shown on the blade.

Blade Selection Key

- Excellent Cutting Performance delivering Good Blade Life and Cutting Speed.
- ▲ Provides Good Cutting Performance and Blade Life.
- Suitable for occasional use only. Prolonged use on abrasive materials will reduce blade life considerably.
- X Blade is not suitable for use with this material

available exclusively from...
